**Subject:** Microsoft Settlement

As a taxpayer I would especially like to see this matter settled as agreed to by most of the parties in November. As a consumer, I would prefer to have no more government regulation than we already have as it tends to increase the price I pay for items. I believe that the settlement should remain as decided in November in the interest of hopefully an aid to the ailing economy especially since the events of September 11th.

It is my hope therefore that the the Microsoft settlement will be approved without change.

Sincerely,  
Sheila G. Medd  
Crossville, TN
